What is the “Must-Have”

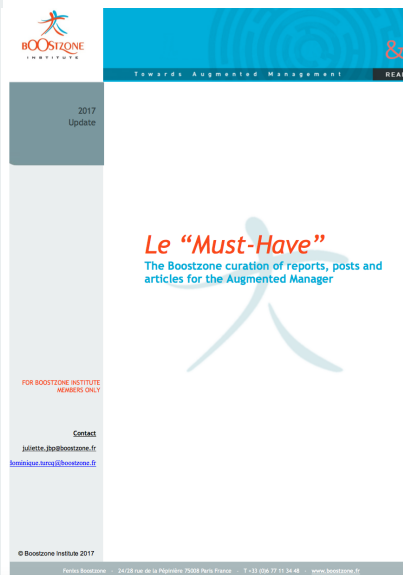

The Boostzone Institute curates constantly information on subjects of interest for Augmented Management. We feed two LinkedIn groups "Towards Augmented Management" (open) and "Boostzone Le Cercle" (reserved to members).

The seminal items of information (reports, documents, etc.) are in parallel compiled within the Must-Have.

The Must-Have is intended to be used for:

- Preparing a presentation or reports
- Scanning information on any transversal management issues

This document is updated and made available every month

Some questions you can handle via the Must Have:

- How will the *tripadvisorisation* of society change HR management?
- Will AI and automation create or destroy jobs?
- Is the biological revolution (namely CRISPR Cas9) going to change our society and our lives more deeply than digitalization did? And faster?
- Will sharing economy drastically change corporate strategies?
- Are fake news a governance issue?
- Why are neurosciences a next disruption in management?

Some elements of the Table of Contents:

- Seeing the World of Work to come (forces at work)
- Forecasting the impact of technologies
- Seeing the governance to come
- Mastering Network Centric Management / Horizontal hierarchies / Collaborative intelligence
- Being at ease with social media and the crowd
- Augmenting oneself and one's team
